

DARLENE BRADLEY

Director, Coaching & Facilitation

Darlene Bradley joined Forrest in 2022 as Director, Coaching & Facilitation.

Darlene is a transformational executive leader whose career has progressed from electrical apprentice, through technical field operations leadership, to leading strategic planning and operations for an electric industry company with \$27 billion in assets, 2019 annual reviews of nearly \$6.5 billion, and a team of ~8800 skilled employees who proudly build and maintain the province's electricity infrastructure.

Darlene most recently worked with Hydro One Networks Inc as SVP and Chief Safety Officer, having come through the ranks in her over 20 year career with them.

An involved member of the utility sector, Darlene has recently sat as a Director with the North American Transmission Forum (NATF), as the Hydro representative with the IESO Stakeholder Advisory Committee, with the EPRI as Power Delivery Sector Council Member, with the Energy Transformation Network of Ontario, and the Electrical Safety Authority Utility Advisory Council.

Darlene prides herself of producing exceptional results and sustainable solutions, achieving operational excellence by optimizing organizations, driving culture change, and collaboration. She takes a personal and relevant approach to leading and developing others through change, engendering loyalty and respect with a "We Win As One" philosophy.

She has been a speaker with Quanta, and the Women in Trades and Technology conferences.

Darlene is a licenced Power Equipment Electrician, and holds a BA in Science, Technology and Society from York University. She is an avid boater, and lover of food, friends, and family.
